St.James Park

Hyde Park

- 地理位置

St James's Park is at the heart of ceremonial London. It's surrounded by some of the country's most famous landmarks including Buckingham Palace, Clarence House, St James's Palace and Westminster.

The park lies at the southernmost tip of the St James's area.

It's located in the city center, just 10 mins drive to the railway station.

There's a great location: 2 mins walk to Subway Line 10.

The Summer Palace, located northwest of Beijing's center is mainly dominated by Longevity Hill and the Kunming Lake.

Hyde Park is open all year round and is readily accessible by public transport.

3.3.2“公园”话题：描述风景

Hyde Park is one of London's finest landscapes and covers 350 acre.

The park attracts a large number of wildfowl into the park, many of which are winter visitors to the park.

The lake is well-used by friendly ducks and other avian visitors and it is possible to select sitting places where all the surrounding buildings are obscured by trees.

Much of the wildlife in the park goes unnoticed by the majority of visitors. This includes a large number of 'minibeasts' such as beetles, bees...

The trees, shrub beds and herbaceous plantings provide rich habitats for song birds including the robins, dunnocks and...

Although the Park has foxes, wood mice and brown rats these are largely active at night and it is the grey squirrel is the most likely mammal for visitors to see.

St James's Park is a really great place to watch bats as dusk falls.

3.3.3“公园”话题：描述运动及个人感觉

Hyde Park was created to satisfy a royal passion for hunting. But over the years it became a place where people have pursued many other pleasures.

The lake is a lovely place to spend time in both winter and summer and there is always an activity going on there.

Over 7 million visitors visit Hyde Park each year. There's something for everyone in Hyde Park, from swimming and boating to concerts and exhibitions.

The paths and grass areas in Hyde Park are used extensively for walking, jogging and running.

- **个人感觉**

I love St James's Park which is very handy if you are staying at Rubens Hotel.

The park is full of wildlife and I love watching the squirrels dashing up trees and eating!

Also, it is just big enough to stretch the legs or, more likely, to sit and relax away from the bustle of central London.

The floral displays are lovely, which create an amazing atmosphere.

Even though you will never get away from the noise of the cars, you at least do not have to look at them for a while!

What can I say? I enjoyed a quiet Sunday there, feeding the ducks, watching the kids sailing their paper boats...

HYDE PARK is a great example on how should the Park be, it's a wide green area, you can walk, play with ducks, enjoy the sun in the sunny day.

If you find yourself at London in a sunny day, don't hesitate and go to take a walk there.

What a respite it is to be able to enjoy the out-of-doors in a place like Hyde Park.

For anyone coming to London, I'd encourage you to spend some time in a Hyde Park so you can get away from the traffic and buildings of the city.

Then there are the more laid back tourists that travel in order to relax.. They enjoy a more relaxing atmosphere away from all the pressures of work and home

2. What is the impact of tourism on a country?

There are both negative and positive. Today, tourism is one of the largest and most dynamically developing sectors of external economic activities. It positively contribute to the social and economic development of the country as a whole. A negative impact is that it can lead to over consumption and lack of resources.

Cost of living rises in almost every aspect from food to rent to fuel.

Homelessness is at a higher rate as there is higher job competition.

My room is a safe heaven. A place where I can snuggle under thick comforters, and read by candlelight. Where the light colors of the walls and ceiling calm me, while the vibrant colors of the bedding revive my worn spirits. It's a comfortable place.

A cozy heaven away from the noise, hustle & bustle of the outside world! It has luxurious green, cream & aubergine colors, I feel safe there & the colors make me feel creative.

It's great to sip our tea or coffee and talk about our plans for the day every morning in the dining room.

I hate being in a dark cramped room with a low ceiling, I will be hyperventilating.

The blue walls make me think of the calming vast seas that relax me. The base boards and shutters are white which remind me of the pure white clouds in the sky. The white in my room helps me to have pure and clean thoughts.

Holiday Inn, Edinburgh

- **个人感觉（服务）**

We've stayed for 4 nights and liked the place very much, especially the service. We enjoyed our stay there and would recommend to other guests.

Included breakfast is good, and abundant.

The excellent daily cleaning service kept the kitchenette stocked with tea, coffee, yogurt, bagels, fruit, etc. They also cleaned the dishes.

The staff were really helpful and friendly and assisted us with our enquiries.

We would highly recommend this hotel as excellent value and will most definitely be staying here on our next trip to London.

Almost everyone speaks highly of it.

The free access to the internet was very useful.

We had expected a budget hotel with few amenities, but the hotel exceeded all of our expectations.

The staff were friendly and the breakfast was more than adequate with lots to choose

from.

The staff were friendly and efficient. We were shown to a really large family room which was clean, bright and tidy. The atmosphere was relaxed and family friendly.

The staff were amazing and responded within minutes when we needed more pillows, towels etc.

Well, it's a Holiday Inn Express, and it does exactly what it says on the tin.

Highly recommended and good value for money.

Great stay, great trip, well worth the money we spent.

3.3.7“宾馆”话题：Part three 相关问题

1. What are the different types of hotels?

budget hotel, motel, youth hostel, inn or campsite...

2. What are the different types of hotels?

Internationally, we used to concern them with stars. 0-star-hotel is usually the government hotel. 1-star, private owned hotel, is in bad service and relatively cheap. As for 2-star, it would be a little bit better in quality but more expensive. It's a common sense that 5-star hotel is the most exclusive and unaffordable, but has excellent service.

3. Which hotel would you recommend people stay in?

Cost effective should be the first position. That is to say, somewhere cheap but still pretty nice. Luxury hotels with 5-star have the best service, awesome conditions, but also cost you much. The youth hostel is good, especially for students since they are in quite reasonable price as well as big beds, cozy rooms, free breakfast, WIFI...

4. What are the differences in quality between the different types of hotels?

Generally, high price leads to a high quality hotel. The embassy suite may be spacious, private, sterile and with good value service. But one night will cost you several thousands. Most people choose to accommodate in some inns, not pricy, but safe and easy living. So I think, it's the price totally makes the quality.

5. When judging the quality of a hotel, what's the most important thing to consider?

First, location. Next, what kind of service they offer me. Then I second cleanliness. Actually before I make the decision, I will search the track records, cause I won't get a hotel doesn't have a good reputation.

6. How important do you think the service is?

Hotel service is very important in order to accommodate well its customer according to their needs, because their purpose is to achieve peaceful and quiet environment. Hospitable and friendly service at a minimum price must be the best choice for the costumers. That's the goal of a successful and ideal hotel in every guest's hope.

Describe a song that has special meaning.

You should say:

what song it is
when you first heard it
what the song is about

and explain why this song has special meaning.

- **Adele <Someone Like You>**

Emotional: sorrow and love

it goes like this:

*I heard, that you settled down.
That you, found a girl and you married now.
I heard that your dreams came true.
Guess she gave you things, I didn't give to you.
It ain't like you to hold back or hide from the lie.
I hate to turn up out of the blue uninvited.
But I couldn't stay away, I couldn't fight it.
That for me, it isn't over.
Never mind, I'll find someone like you.
I wish nothing but the best, for you too.
it's something about ...
it tells a story about...
it relates to...*

Adele's 'someone like you' is about how she couldn't get over her ex-boyfriend and she loved him so much that it hurt her deeply to split up with him.

The main idea of that song is: sometimes it lasts in love, but sometimes it hurts instead.

I was devastated...

I just couldn't move on...

I started to listening to it as everybody with a broken heart would do.

What's done is done...

Maybe all that repetition of "never mind I'll find someone like you" worked.
it brainwashed me, I finally let go.

Someone Like You was the cure for me.

It's very therapeutic, every time it puts me in good mood.

I was pessimistic.

This song means the world to me.

It changes my mood for the better.

It's a highlight of the album and the lyrics are moving.

3.4.2“音乐”话题：A Meaningful Song 之儿歌

Ray, a drop of golden sun.

Me, a name I call myself.

Sew, a needle pulling thread.

La, a note to follow Sew.

Tea, a drink with jam and bread.

That'll bring us back to Doe

it's something about ...

it tells a story about...

it relates to...

"Do-Re-Mi" is a show tune from the musical The Sound of Music. Within the story, it is used by Maria to teach the notes of the major musical scale to the children who learn to sing for the first time.

When you know the notes to sing, you can sing most anything.

It's cheerful and playful.

It brought me happiness and laughter.

It taught me every single musical note.

It reminds me of my childhood.

I would burst into song & dance out of the door.

Describe a photograph that you like.

You should say:

where you saw this photograph

what (or who) is in the photograph

why this photograph was taken

and explain why you like this photograph.

Ok, let me talk about an old family photograph.

It was a photo of my family.

From the plain background of the photo, I remembered that we took the photo in a studio and it was taken by a professional photographer.

I was not photogenic.

Well, although it worn out a bit, I still see everyone's faces in the photo clearly.

I would like to reprint it and frame it.

Every time a nice photo can give me a sense of satisfaction and achievement.

It was a memorabilia for me and my family.

- 开门见山

I'm going to talk about a photograph I took with my girlfriend when we were on vacation in Bali. Phuket, Saipan, Maldives , Santorini, the Alps, Trinidad and Tobago...

- 谁拍的

Actually, I took the photo myself, I put a self-timer on my car and ran back to pose with my girlfriend. You know I'm bit of an amateur photographer myself, so I know a thing or two about cameras.

- 哪拍的

The photo was taken about two years ago when we decided to go to Bali during the spring festival. Bali is a great getaway during the winter time because of its wonderful geographical location. It's summertime all round the year in Bali.

The picture was taken from the balcony of our hotel room, the background of the picture was the beautiful blue sea and the white beaches of Bali. Although we weren't exactly very photogenic in the picture, the view was awesome.

- 个人感觉

I really like this photo because it is a souvenir of the first trip I made with my girlfriend, it marks one of those important milestones in our relationship, and every time I see the photo I get a good laugh because we were making silly faces in the picture, so it's a fun little memorabilia.

Many people of my age spend lots of money and effort getting into photography, and it becomes a trend.

Most of my friends are amateur photographers, they organize shooting sessions during the weekends, which really pulled me

I prefer to take pictures of portrait. I also love document scenery.
I am lucky enough to live in Beijing and could never get bored

Photography gives people a chance to document every detail of
the surroundings they are in during a trip. The small snapshot or

Some people believe that the best moments should be stored in your mind
rather than in photos. In some other cases, people don't like being in a
photo might because that they are camera-shy, not photogenic I mean.

Several elements make a good photograph such as angles, backgrounds
and the kind of camera. Obviously, it is more fantastic to take a great
picture with a digital single Lens Reflex (DSLR) camera than with a
point-and-shoot.

3.4.5“照片”话题：part three 相关问题

1. Do you like taking photographs?

I like taking photographs. It is a great way to keep memories. I take my camera
everywhere and take pictures with every good opportunity. My mother has been keeping
a scrapbook for me since I was a baby. I now continue to fill my scrapbook on my own.

2. Why do some people dislike taking photographs?

Some people are just not photogenic. They do not think that they look good in photos,
thus refuse to take them. I like to try and catch them when they are not paying
attention/acting natural. I think most photos of people are usually better when they are
in natural settings.

3. Compare the photos you take with those that professional photographers take.

The photos I take are no where close to the quality of professional photos. This is
mainly because:

Professional photos are touched up with computer programs. (涉及到)

Professionals also set up there scenes with quality lights and artificial scenery. They
make sure that they remove all reflections and other interferences.

When I take photos I don't take all the preparations that professionals do.

It was in rush hour in the morning, when I was heading to city center, I was stuck in the snail-paced traffic...

- 感觉

I lost my cool. Blew my horn, leaned out the window and screamed at the drivers ahead of me, gave everyone the finger, drove on the shoulder.

It was the pain in the neck.

It drove me nuts.

I got really impatient and nervous.

I chain smoked talked on the phone.

I truly detest the heavy traffic, there's no way I can tolerate it.

It cost economy and everyone involved, meaning you and I, lot of money for god's sake!

1. What are the causes of traffic jams?

rush hour, slow moving trucks, construction on the roads, cars with trailers, crash incidents, many pedestrians walking across a street after some sort of large meeting, bad weather, traffic lights malfunctioning, bike gangs, traffic control...

2. Do you think the problem of traffic congestion will be eased in the future or will it become worse?

Population is increasing, children they get older to drive. People are relying on cars too much, this problem will become more and more serious. It depends on the authorities anyway, don't leave the problem.

3. What would you suggest as possible solutions to the congested traffic?

When you drive a car, DO NOT act like a herded animal doing what other people are doing. Be Polite!

Build more overpass/underpass for pedestrians

Restrict buses, jeepneys and tricycles from highways or main roads.
